PORT ARTHUR CHANNEL.

Work Will Be Resumed at Once and Pushed to Completion.

ATTORNEY GENERAL RENDERS A DECISION

He Holds that the Work Is Being Legally Done-Chairman Barton in Favor of Texas Harbors.

(Special Dispatch to The Post.)

Washington, February 13.-The Port Arthur people have probably won a victory and the opinion of the attorney general of the United Stries will probably have the effect of finding the channel they were constructing when stopped by order of the secretary of war. This order was made at the instance of certain people who said the secretary had no right to authorize the construction of a channel through waters construction of a channel through waters that were not wholly within the limits of San Francisco, February 13.—Three fur-lorgs.—Win Yah, St. Agnes, Tanobe. Time :37. one State. The secretary then asked the opinion of the attorney general. He ren-One mile, four hurdles, purse-Tom Smith, dered his opinion today and it will prob-Five furloags-Eakins, Sliver State, Ein-

ably reach the secretary of war tomorrow. stein, Time 1702.

Mile and a quarter, selling-Misfleton, Lady
Hurst, The Bachelor, Time 2:08%.
Six furlongs, selling-Cyril, Midlight, Mentallade, Time 1:14. The attorney general says: "The question submitted for my decision is whether the fact that Sabine lake and Sabine Pass, constituting the boundary line between two States, deprives the secretary of war of jurisdiction of authority to grant permission for construction of a public work which will affect the capacity of the port, roadstead, haven, harbor or the channel of the navigable waters of Sabine lake and Youngstown, Ohio, February 12.—Osear Gardner, the crisbrated Omaha Kid, inst the decision to Jack O'Brien, in a twenty-round bout berse toright, for a purse of \$2100. O'Brien was represented from the start and Gardner leared for litteen rounds. In Lae last three rounds O'Brien had decidedly the best of it and when the bout cloud Gardner was groggy and one of his eyes was closed. Sabine Pass, and whether on that account orders should be given for the stoppage of the work now being prosecuted by the

Port Aribur company." The point made by those who demanded the stoppage of the work was the second clause of the provise in the river and harber bill of 1890, which is as follows: "Or be so constructed as to authorize the con-struction of any bridge, drawbridge, bridge

Powdered Pith of Cornstalks is Used in Lieu of Cotton.

I caus Grove, N. J., February 12.—At the big powder works of the Duponts, at, Carneys Peint, interesting experiments in smokeless powder see being made by experts in the employ of the government. One of the difficulties that has attended the manufacture so far is that the powder to not wholly smokel as and that it apparently issue afrength through storage. The experiments, it is read, led to the discovery that cotton could not be ground fine enough to bring about the best results and that the powder dipth of cornstalks gave thousand of acres of cornstalks annually go to assist in the field, although much is being the general says. "But the canal or channel being constructed by the Port Arthur company is not in any sense such a work or attructure as is contemplated in waste in the field, although much is being under the manufacture of celluloss.

section, has any jurisdiction, it is one that comes under the third subdivision of the rection—as expanding which affects the condition or capacity of the channel of Sabine lake and Sabine Pass. But in this paragraph there is no reference what. the condition or capacity of the channel of Sabine lake and Sabine Pass. But in this paragraph there is no reference whatever to any State authority and of course there can be no limitation except such as is expressed in the act itself. The war department, having under the previous opinion of Solicitor General Conrad given its assent and approval to the dredging of this canal, which is wholly within the territory of the State of Texas, I see no reason why that permission should now be withdrawn. If the particular work which the Port Arthur company is prosecuting is one not covered by this section, then the approval age authority of the secretary of war were not necessary. If it was such a work as required his authority and approval then it was properly given, and the company having prosecuted its work in good faith under that authority and expended large sums of money, it ought not now to have the authority revoked." revoked

This is equivalent to giving the Port

chairman Burton of the river and har-bor committee feels sore over the rather hersh criticisms that have appeared in cer-tair. Texas papers anont this Texas City matter. Mr. Burton says he is not dismatter. Mr. Burton says he is not dis-pused to be arbitrary about this thing and only seeks the good of the commercial interest of the people of the West. He wants only best results to ensue from the depending of the harbor at Galveston and is simply awaiting definite informa-tion as to conditions to take action.
